BROTHER CONSUMABLES

Brother consumables have been designed to achieve optimum performance and prolong the life of Brother machines.

Why use Brother consumables?

Using original Brother consumables guarantees optimum performance and in the unlikely event that something goes wrong, it maximises the support and diagnosis process within our customer support centre meaning that we can deliver higher levels of customer satisfaction.

The benefits in brief

- Easy to replace
- Low cost per copy
- Optimised image reproduction
- Excellent in draft mode

Laser Drums & Toners

The separate drum and toner for the laser faxes have been designed to achieve maximum economy. The toner cartridges can be replaced without having to replace the drum which has a longer duty cycle.

Inkfilm Cartridges & Ribbons

The separate cartridges and ribbon for the inkfilm faxes have been designed to achieve maximum economy and a fixed cost per copy. The inkfilm ribbons can be changed without having to change the cartridge.

Colour Inkjet Cartridges

Eliminating the frustration of having to throw away unused inks, Brother's colour inkjet machines provide separate ink cartridges for each colour. Now all you have to do is replace the empty colour cartridge reducing wastage and the cost per copy.

Brother Green

Visit our Consumable recycling at:

www.brothergreen.co.uk

Brother Green **0870 830 4015**

Return Brother cartridges free of charge for recycling using a pre-paid label.

Printed on recycled paper
